- Entering keywords:
Physician can highlight and write keywords by dragging the mouse on narrative.

1. Yes 2. No → Skip to Q30 3. Unknown 4. No 5. Unknown

Section 3: Written narrative in local language 34. Narrative language code 0 2

Please describe the symptoms in order of appearance, doctor consulted or hospitalization, history of similar episodes, enter the results from reports of the investigations if available.

The client was having high fever and complained of headache. He was not taken to any doctor for treatment or consultation but he was given medicines which were bought from the pharmacy. There was no sign of improvement even after taking medicines, as the fever was still high for three days. Just breathing.
